THE OHIO ALUMNUS is published in September, November, January, March, May and July by the Ohio University Alumni Association.

Members of the Board of Directors are C. P. Bryan, '32, *president*; Eugene Rinta, '38, *vice president*; Ralph Beckert, '23, *treasurer*; William K. Loftus, '58, *executive director*; E. B. Evans, '42; Sammy Kaye, '32; Joseph Marsalka, '50; Darrell H. Sams, '21; J. Edward Belsho, '50; Dr. William S. Jasper, '41; Donald J. Pease, '53; Mrs. Rose Marie Thomas, '51; Ralph Hughes, '50; Allan Riedel, '52; Donald S. Shafer, '37; Mrs. Alice Wright, '38; Milton J. Taylor, '50, *ex-officio*.

Work Begins On 7-Story Library

Work on Ohio University's new multimillion dollar library building—designed to house both undergraduate and research collections—is now underway on the Athens campus, with the timetable calling for occupancy by late spring of 1968.

Destined to play a key supporting role in the University's academic development, the \$5.8 million, 7-story structure will be situated near the historic heart of the campus just south of Cutler Hall.

Site clearance, which required demolition of Tupper Hall, the old Boyd Hall and Women's Gymnasium, was finished in August. When the University's 162nd school year opened in September, workmen were well along on the excavating work.

Underpinning and pilings for the

new structure are now underway, and work on the foundations is next on the schedule.

When completed, the library will house 1.1 million volumes—three times as many as can now be housed in the Chubb Library. Departmental libraries in other buildings and microfilm materials will bring the University's capacity to 1.5 million in the years immediately ahead.

The new library's reading lounges and study areas will provide seating for 4,000 persons, as compared to the present combined capacity of 1,200 in Chubb and the smaller libraries in Jefferson Hall and the Colleges of Education and Fine Arts.

The building has been designed to house two libraries under the same roof—an undergraduate li-

brary on the first three floors and a research library on part of the fifth and all of the top two floors. The latter will be used primarily by graduate students and faculty.

Plans call for the undergraduate stacks, consisting of approximately 100,000 volumes, to be organized according to subject areas, with the first floor housing social sciences volumes, the second reserved for materials in science and technology, and the third floor for humanities.

In addition to individual and group reading and study areas throughout the first three levels of undergraduate stacks, the second floor will include an 11,000-volume Children's Library seating 35 and serving also as a training facility for school librarians; the Learning Resources Center, which

Schematic drawing of College Green shows location of Ohio University's new library in relation to present buildings. Chubb Library is in upper lefthand corner.

Architect's view of library as it will appear to passersby on Park Place. Six floors will be above ground level on this (south) side, four on the north.

assists faculty members in the preparation and use of audio-visual materials; and data processing, shipping and receiving rooms.

Special facilities on the third floor will include a classroom and offices for the University's library science faculty; a large student lounge; and a small multi-purpose auditorium seating 120 and equipped for tape recording and playback, closed- and open-circuit television, motion picture viewing, special lectures, and live musical programs.

Main entrance to the new library will be on the fourth floor level facing Cutler Hall, with twin entrances at the second floor level facing Park Place on the south side. Four floors will be above grade level on the north side, six on the south.

In addition to reader services, book browsing alcove, central checkout facilities (including an "express" checkout at the main entrance), and processing and cataloging areas, the fourth floor will have a study room open on a 24-hour, 7-day-a-week basis, with seating for 200 students. Equipped to hold as many as 5,000 volumes, this area will also serve as a reserve book reading room during the library's usual hours of operation.

The fifth floor, which will house part of the research collections, will also accommodate government documents; periodicals, including major magazines and newspapers of the United States and other countries; two microfilm reading centers; an area for housing and display of rare book collections; and the University's archives, which will provide a central records repository for the institution.

The sixth and seventh floors, housing the bulk of the University's research collections, will have an ultimate capacity of 1,000,000 volumes. Faculty study rooms and study cubicles for graduate students will also be on these floors.

Materials in the research collections will be available to users on the lower floors through an electronic call system.

A central core—extending from the first through the seventh floors—will house a stairway, elevators, booklift, and other service facilities and equipment.

The building will have year around temperature and humidity control. Fluorescent lighting will be recessed in suspended acoustical ceilings, and acoustical materials will be employed throughout the building—with particular at-

tention to reading and study areas. Data processing equipment will be used in the new building to process and catalog new acquisitions, and handle routine work involved in checking materials in and out of the library.

Campus officials are investigating applications of automated information retrieval systems in the new library.

Among the applications being studied are programmed learning materials and "dial-access" information systems.

The latter for instance, might take the form of equipping study cubicles with audio and visual receivers hooked up to equipment in the Learning Resources Center.

To hear lectures in a course related to his research project or view a documentary about the country where he has a teaching assignment the next year, the user would consult a reference catalog in the cubicle to find the subject item and its code number. Then he would dial the number as one does a telephone. In a matter of seconds, he would be listening to or watching what he wants.

University Acquires Americana Imprints

Recent purchase of a \$10,000 microprint edition of Early American Imprints has added to Ohio University's Libraries the most complete collection of early Americana in existence today.

The collection, which numbers more than 42,000 titles and includes many unique and hitherto unreproduced works, consists of the complete text of every existent book, pamphlet and broadside printed in the United States between 1639 and 1800.

Libraries Director Walter Wright

points out that the collection provides faculty members and students access to the source materials for extensive study in American history, literature, political science and related fields.

Such research was limited in the past, Mr. Wright explains, because the originals are rare and frequently unique copies. Most, he adds, are concentrated in the research libraries of institutions in the northeastern United States, and so are not available through inter-library loan.

The collection represents the fruits of more than 50 years of bibliographical research—much of it the work of one man, Charles Evans, an organizer and administrator of libraries in Boston, Baltimore, Indianapolis, Omaha and Chicago.

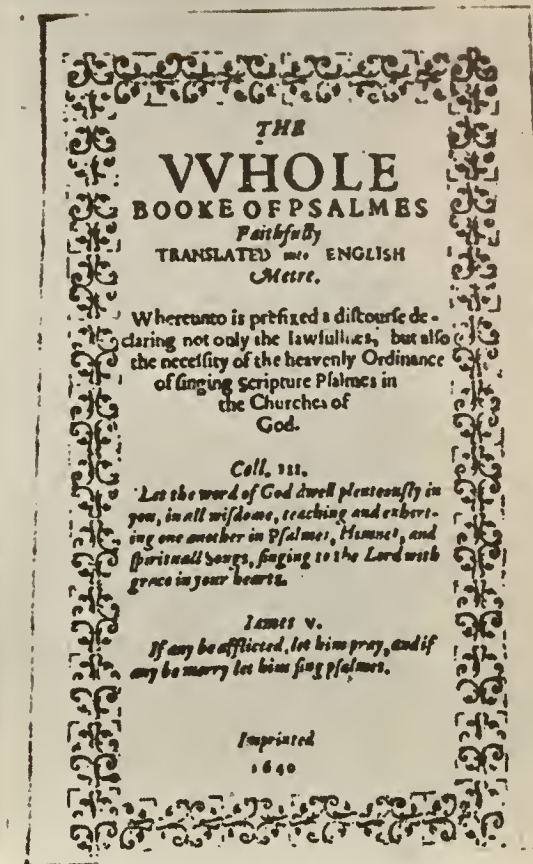

When the 12th volume of his *American Bibliography* appeared in 1934 shortly before his death, Evans was quoted as saying that he had lived so long with the books of the 17th and 18th centuries that men of today were "more a myth to him than those of the first 200 years of this country."

Many of the entries in Evans' bibliography bear the authorship of men like Rufus Putnam and Manasseh Cutler, whose careers are intertwined with the settlement of southeastern Ohio and the establishment of an "American University" on the banks of the Hocking River.

The task of updating the entries on the basis of more recent scholarship fell to Evans' many successors and, in 1955, the American Antiquarian Society undertook preparation of the microprint edition of the works themselves.

The work was sponsored by the American Historical Association, and has the endorsement of numerous American historical societies.

AMERICANA REVISITED—For the student and collector of American literature, the Bay Psalm Book (title page reproduced above) holds the place which in the incunabula of printing is given to the Gutenberg Bible. Of an original edition of 1,600, only 11 copies of this earliest printed work in the United States are known to be extant, and six of the 11 are imperfect. The 148-page text of this translation from the original Hebrew by Massachusetts Bay Colony divines is one of more than 42,000 works in a microprint edition of Early American Imprints just acquired by the University.

'A Chance To Deal With The Real And Contemporary'

"If you have come here expecting that we have a formula for handing significance to you, you are living under an illusion that you should dispel promptly."

These words were offered by President Alden at the fall convocation to students who have not yet gone through "the painful process of discovering that *no* educational institution or organization or environment can *give* one significance."

Speaking before capacity audiences in Memorial Auditorium, Alden said:

"One of the most disheartening experiences I have as a university president is to hear a student say, 'The courses I'm taking and the faculty members I have are not turning me on.'

"There is really no way to reply to such a statement," he said, "because of the implied assumption it is the university's role to *guarantee* stimulation, to *give* an education, to *assure* self-fulfillment."

Seldom has an undergraduate generation arrived in the atmosphere of excitement such as 1966 provides, he continued, especially in a burgeoning period such as on the Ohio University campus today.

"I wish I knew how to dramatize for you the differences between being in a dynamic as contrasted with a static institution," he added.

"You will know some day because there are plenty of static ones around."

Alden advised the students that "this is your chance to prepare yourself by learning how to reach out to the opportunity that is here."

He added, "We have not contrived to make it easy for you, neither have we contrived to make it hard.

"We do our very best to make your experience *real and contemporary*."

This is the chance Ohio University offers its students, he added, "the chance to deal with the real and contemporary."

* * * *

TRUSTEES APPROVE NEW PROGRAMS

Ohio University's Board of Trustees this fall gave their approval to a sabbatical leave program for the University's faculty and authorized the building of 1,740 additional residence units to allow untripling of rooms by 1968.

Other trustee action authorized construction of 192 housing units for married students on the Athens campus and gave approval to architectural plans for the first building on the Ohio University at Lancaster campus.

The sabbatical leave program makes each tenured faculty member eligible for a leave following each six-year teaching period. Professors will have a choice of a half-year's leave with full pay or a year's leave with half-pay.

The 1,740 residence units, to be completed by 1968, represent a

UNIVERSITY CHANGES TO QUARTERS CALENDAR

Beginning next September, Ohio University will operate on a quarterly academic calendar.

The changeover, announced earlier this fall by President Vernon R. Alden, is part of a statewide program instituted by the Ohio Board of Regents.

Under the program, all state-assisted colleges and universities will have a common calendar.

Alden pointed out that it is desirable to begin the quarter system next fall since July is the start of the legislative biennium.

A common calendar for the state universities will be a "strong argument" for increased support, he said. Schools will be able to make better use of their physical plants the year around, and there will be more room for innovation and change as far as the courses are concerned, he said.

The President said he thinks the changeover from the semester to the quarter system "should make the University more exciting and a livelier place since faculty members will have taken a new look at the courses to evaluate them for the quarter system."

Thomas S. Smith, vice president for academic affairs, reports that the University is "moving full speed ahead to have the calendar ready for next fall."

Faculty members throughout the University are now in the process of re-examining and re-designing all courses on a quarterly basis. (Currently, the University has approximately 1,800 course listings in 95 areas of study.)

Although the 1967-68 calendar is only tentative at this point, it's shaping up somewhat as follows:

Fall Quarter—September 27 to December 16 (11 weeks, 3 days).

Winter Quarter—January 3 to March 16 (10 weeks, 3 days).

Spring Quarter—March 25 to June 8 (10 weeks, 5 days).

Summer Quarter, to include two sessions—June 17 to July 24, July 25 to August 31 (10 weeks, 5 days).

Currently the University's calendar consists of two 18-week semesters and a summer session of two five-and-one-half week terms.

Among the advantages cited for the new statewide plan are:

- A common calendar will assist high school counseling and student planning.

- A common credit hour system will facilitate transfer and evaluation of credits.

- The quarter system will facilitate plant utilization on a year around basis.

- A common calendar and credit hour system will facilitate budget planning and help to ensure equitable treatment among state-assisted schools.

doubling of units originally scheduled by that date and will make possible the assignment of only two students per room. The new residences will be the beginning of the new South Green, the third complex of residence halls on campus.

Approval of architectural plans for the Lancaster building gave the go-ahead to a December groundbreaking for the \$2.4 million two-story structure. Target date for classes is February, 1968.

Included in the new building will be classrooms and laboratory space, a physical science and electronics laboratory, a library, and a language laboratory.

Other action by the trustees included naming the Agriculture Building Benjamin Tupper Hall. The old Tupper Hall, south of Cutler Hall on the College Green, was razed last summer to make way for the new library.

Trustees also passed a resolution providing that the first building on each University branch campus be named for a historical leader from the local community. Branch campus communities will be asked to make recommendations.

Ohio Professor 'Plays' Business Game With Managers and Students

WHAT WOULD YOU DO?

You are a member of a new executive committee charged with management of your company.

Although the company has not been losing money, the stockholders are quite unhappy with return on their investment. Your group has four years to turn the company into a more profitable operation.

Your basic product is a highly standardized consumer expendable item, and you are competing with seven other companies in a market which has a long-term growth trend. Recently a group outside the industry developed an innovation which completely revolutionized the product. All companies—including your own—have acquired rights to produce the new product. The production capacity of each firm is the same, and the very newness of the product has prevented any significant differences in manufacturing methods which could lead to a cost advantage for one or more of the companies.

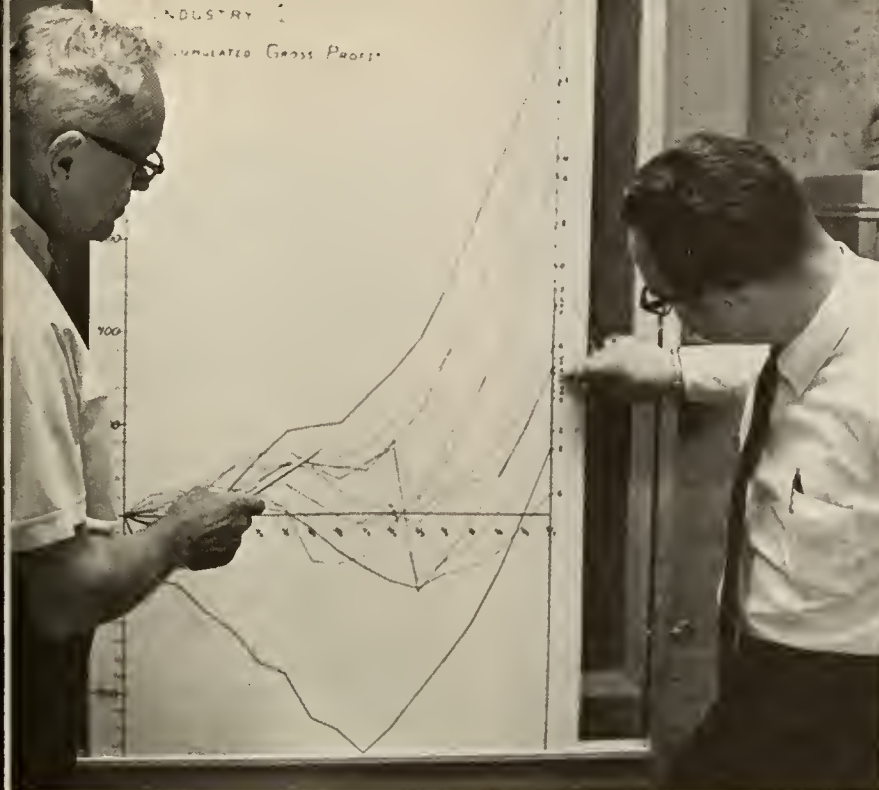

However, there is nothing in the licensing agreement with the development group that prevents you or your competitors from improving processing methods

to reduce manufacturing costs or modifying the basic product to increase customer acceptance.

Some of your competitors are planning to spend considerable sums to develop an extensive distribution network for the product and will couple this with an aggressive sales and advertising campaign. Others are using less costly distribution channels and marketing strategies on the assumption that the market for the product is sufficiently large to absorb what they produce. The best strategy is not yet apparent.

Within six months, you must present a concise written statement of your objectives and long range policies to the board chairman. You must also prepare a more specific plan of action for the first year.

Right now, though, you must decide how many units of the product you will manufacture during the next three months, whether you should raise or lower your prices, how much you should spend on advertising and sales, how much—if any—to spend on methods engineering and product development.

Ted Hellebrandt (left) and John Stinson, co-developers of GBMS, explain results of simulation exercise played via mail by businessmen from several companies. Lines on chart show how each team did, starting on equal terms (extreme left) but winding up (extreme right) with considerable spread between the lowest and highest teams in terms of gross profit.

If the “game” situation described on the facing page sounds familiar, it may be because you have a similar situation in your own work.

Or perhaps you have played the “General Business Management Simulation” (GBMS) game developed by Edwin (Ted) Hellebrandt, professor of management at Ohio University, and John Stinson, a former faculty member now working as a management training specialist for the McBee Systems, Division of Litton Industries.

Business gaming — some call it “management simulation”—is a relatively new concept, Hellebrandt explains, although the idea itself goes back hundreds of years. The military have been playing war games for centuries, he notes, and chess was early used as a form of war game — especially by the Prussians in the 18th and 19th centuries. The Germans made extensive use of war games preparing for both world wars, he adds. (Perhaps the most elaborate one now in use is the \$7 million U.S.

Navy Electronic Warfare Simulation (NEWS) at the Naval War College in Newport, R.I.)

One of the first applications of the game concept to business management was developed in 1956 by the American Management Association. Today, more than 250 are in use by industry personnel and educators throughout the world.

“We began developing ours back in 1958,” Hellebrandt says. “It’s undergone many modifications and revisions since then.”

Hellebrandt and other management faculty members at Ohio use the game with students in a management principles class and with managerial personnel in training sessions conducted for Royal McBee, Union Carbide, Kaiser Aluminum, Nationwide Insurance and other firms.

“The game’s real value as an educational tool,” Hellebrandt believes, “lies in its giving the student or embryo manager a chance to learn from experience without pay-

ing the price of wrong decisions in real life.”

As the professor views them, business games are a means to bridge the gap between the student’s general knowledge of business and the actual practice of business management.

Traditional educational methods such as lectures and seminars and reading, he points out, provide the student a rudimentary knowledge of business organizations and some understanding of the principles of management.

“But the knowledge itself certainly doesn’t assure the student skill in decision making, and the methods through which he acquires this knowledge provide him hardly any opportunity to develop the skill,” Hellebrandt says.

“You might think that some procedure or method would have been devised long ago to help the embryo manager acquire the skill. But, until very recently, ‘on-the-job’ experience has been the only

real way to develop it.

"But, for most of us," he notes, "experience is a costly way to learn, and rarely does the student or embryo manager have an opportunity for the kind of wide-ranging experience which leads to sound decision making. Following a decision rule handed down by a superior gives only limited understanding, and when a new situation arises the decision may be of little help as a guideline. In fact, such 'experience' may more often misguide than guide."

Even in those instances where junior managers are given an opportunity to make decisions in the fullest sense of that term, the educator explains, the size and complexity of the business and the manager's position in the organization may militate against a full understanding of the situation and the larger decision areas involved.

For instance, Hellebrandt says, the manager may see a clash of personalities when the problem is poor organization. He may see a problem of manufacturing costs

and start a cost reduction drive, when the real problem is poor engineering design or sales planning. Or, he may see an organization problem when the real problem is lack of clear objectives, explains Hellebrandt.

Business games give the student or manager the chance of practicing decision making in specific situations, says Hellebrandt. He can experiment with various—perhaps unorthodox or "far out"—courses of action. He can try to analyze a business type of situation and experiment with different allocations of available resources.

The GBMS game, which is set up on a four-year period with decision intervals every three months, can be played in as few as two or three days in a training session, or it can be played over a 10-20 week period by members of a management principles class. Some play it via the mails.

It works something like this. A group of 35-50 persons are split up into teams of 3-5 persons, with each team managing one company.

"Some teams organize themselves as an 'executive committee,'" says Hellebrandt. "Others assign specific decision making functions such as president, sales manager, production manager and so forth to individual members.

"We then brief them on the model environment and the ground rules they must follow."

Each team starts with the same resources. The model environment which describes the firms and industry and market, sets the limits on what any one team may do.

The model is necessarily an abstract one, Hellebrandt notes, and the relationships between decisions and their results reflect only general principles of business and economics.

For instance, he explains, "an increase in prices by any one firm will tend to reduce its share of the market as well as the overall market potential, whereas increased sales or advertising effort will have the opposite effect."

Each exercise is unique in that the decisions of the competing

"Now what?" seems to be the unspoken question on the minds of this team's members, as they prepare their first-round decisions during a simulation exercise conducted by Professor Hellebrandt. Team members must decide the price and quantity of their product; how much they

will spend for advertising, methods engineering, research and development, market research information, and plant expansion; dividend payments, investment of surplus funds, and related matters.

teams and their interaction with one another give rise to the basic problems confronting the teams at subsequent decision intervals.

"This means the team must live with its previous decisions, whether they were good or bad, wise or unwise," explains Hellebrandt.

The game is an interacting model.

"In other words," Hellebrandt explains, "it's like tennis rather than golf. What you do and how you play directly affects the other fellow, and vice versa."

Although the model is necessarily an abstract one, he adds, inherent in every decision by a given team is the uncertainty of what other teams are planning to do and how they will react to your team's decisions.

At the end of the game, the participants have a critique session in which each team captain explains what his team did and why.

"Sometimes these sessions get pretty heated," Hellebrandt notes.

Usually, he explains, the teams report in reverse order, from low

A critique session concludes the GBMS game and gives each team member a chance to see how his "company" performed in comparison to the others.

to high gross profit.

"By the time we get to the top team, the participants have a pretty good idea of why things turned out as they did."

Hellebrandt cautions participants, however, that they cannot take strategies which have proven successful in a specific exercise and apply them to actual business situations, or even to another simulation exercise.

A business game can help a person become a better problem solver, and may provide him an understanding of the managerial process so difficult to attain except through years of actual experience, the Ohio professor explains.

"But it gives no one a set of predetermined rules and relationships to carry over into his career."

The Chicago native speaks himself from many years' experience, although intense enthusiasm and

voluble manner belie his 62 years.

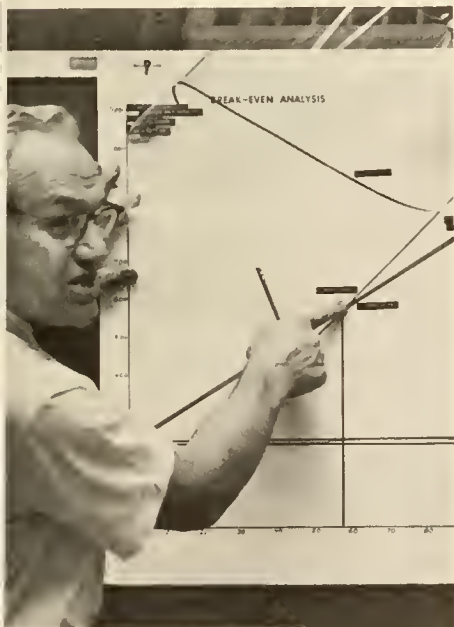

A member of the Ohio faculty for 36 years, he has conducted work simplification and executive development programs for many firms, including the McBee Systems, General Electric, B. F. Goodrich, Pittsburgh Plate Glass and Remington Rand—to name a few. He is also senior partner of Management Research Consultants in Athens.

He served with management personnel from 15 countries in 1960 as a participant in an international management development institute in Lausanne Switzerland.

This past summer, he spent two weeks in the winter of Punta Arenas on the southernmost tip of South America conducting a management game for some 50 executives of the Chilean oil industry.

"It was quite an experience. We have another session in Santiago coming up next summer, so I have some time to improve my Spanish."

Hellebrandt's formal education ranges from chemistry and mathematics to finance and public utilities economics. He holds degrees from the Universities of Chicago and Wisconsin.

GBMS's developers use "baseline" charts such as the one pictured here to demonstrate interrelationships of factors such as pricing and market potential in the simulated business environment.

Einhorn Joins Trustees' Academy

Herbert Einhorn, '33, a practicing attorney in New York City, has become a member of the Trustees' Academy through a deferred gift to the University.

A partner in the law firm of Aranow, Brodsky, Bohlinger, Einhorn and Dann, Einhorn is author of the book, "Proxy Contests for Corporate Control."

He has represented management or insurgents in a number of proxy contests, including Twin-City Rapid Transit Co.; United Whalen Corp.; Air Associates; Decca Records; U. S. Hoffman Machine Co.; New York, New Haven and Hartford Railroad Co.; and National Theatres and Television, Inc.

With another partner in his firm, Einhorn has written a series of articles on various aspects of proxy law. His own book is a standard reference in the field.

Einhorn has lectured at New York University and the Practicing Law Institute in New York City, and had a column on rent control

laws in the *Real Estate News*. He has also been director of the Major Finance Corp., Silver Springs, Md., since 1962.

Graduated with honors from Ohio University and Columbia Law School (1935), Einhorn served with the U. S. Army Artillery Corps during World War II.

A member of numerous civic, charitable and professional organizations, he is a director of a camp for underprivileged boys and is active in the work of B'nai B'rith.

He is married to the former Roslyn Appel. They have two children, Eric and Diane.

Mr. Einhorn is one of 42 alumni and friends of the University who are members of the Trustees' Academy.

* * * *

The Trustees' Academy, initiated last year, now numbers 42 men and women among its members.

The members are alumni and friends who believe in the potential of Ohio University and who willingly give of their time, energy and resources to assure high educational attainments by the University.

Membership in the Academy is contingent upon the pledging of a substantial gift to the University and a willingness to assume an active and personal role in its development.

They assist the University as representatives of President Alden, and their counsel is also sought by the University's Board of Trustees and deans of the colleges.

The financial support given to the University by the Academy's members is considerable. To date, the 42 members have given or pledged more than \$2.8 million.

Special Assistant to the President

A year ago, Ohio University began organizing a concerted effort to acquire federal funds for projects the faculty wanted implemented.

Prior to this effort, in fiscal year 1965, the University had in force a total of \$4.9 million in federal grants and contracts. Partially as a result of this effort, and an effort to keep apprised of the many federal opportunities for support, the University achieved in one year more than twice as much in federal support—from \$4.9 million to \$10.4 million in fiscal year 1966.

We will take a good look at federal dollars this coming year in an attempt to ensure that we can utilize these dollars to achieve our long range goals. The \$10.4 mil-

lion we acquired this last year have enabled us to support research programs, build much-needed buildings, buy equipment, recruit and retain some superior faculty and students, reduce teaching loads, increase support for undergraduate and graduate students, and perform public services from Vietnam to Nigeria and back to Appalachia.

It is readily apparent that state assisted universities such as ours, which are going to bear the burden of educating 80 percent of the nation's students by 1975, are going to need substantial increases in support beyond what the state legislature practically can grant.

Federal and private grants, added to the base of public funds and student fees, will enable Ohio University to achieve an excellence otherwise beyond its reach.

Ford Foundation Awards University \$131,200 For Teacher Education Project In Nigeria

A Ford Foundation grant of \$131,200 has been awarded to Ohio University to finance the University's participation in the Northern Nigeria Teacher Education Project.

In the regional project, the University will help plan and coordinate expansion of teacher education in the northern provinces.

A stepped-up program of teacher training has been given top priority by the government of the Northern Region, where only an estimated 11 percent of the children are in elementary schools.

The project is directed by the Northern Nigerian Ministry of Education at Kaduna with assistance from the Ahmadu Bello University Institute of Education at Zaria. (Ahmadu Bello is the only

university in Nigeria's Northern Region.)

Assistance under the Ford grant will differ from the University's other projects in Nigeria—teaching training programs at Kano and Ibadan conducted under contracts with the Agency for International Development.

The AID projects are technical assistance package programs and are designed to teach specific competencies to Nigerian teachers. As Nigerians become qualified in these competencies, the AID projects will be phased out.

The Ford Foundation grant will enable Ohio University professors to contribute to long range educational planning while serving as staff members at the Ministry and the Institute.

Ohio University in the News

A capsuled account of University activity as reported by the American Press

A recent newsletter of the Columbus Chapter of the National Academy of Television Arts and Sciences describes efforts of chapter and Ohio University representatives to bring students into more direct contact with professionals in the field.

"An Ohio University committee has been established to provide the nucleus for this project," the newsletter reports. "Working with the Columbus representatives will be Pres Holmes, general manager of Ohio University's WOUB-TV; Archie Greer, WOUB-Radio station manager; and Gordon Lawrence, a graduate student at the University."

Aim of the project is "to create an awareness in the students of their chosen profession's Academy—to enable them to meet with, and gain from the experience of, professionals in the field—and to instill in them now, during their school years, the urge for more active and vocal participation in their profession after graduation."

* * * *

Dr. E. D. Mattmiller, director of Hudson Health Center, and four Ohio University students have been named by the Carnegie Hero Fund Commission, Pittsburgh, to receive bronze medals and \$750 each for acts of heroism.

Students receiving the awards were Ronald E. Ziegler, 21, Athens; Durward L. Lewis, 18, Morrow; Richard E. Barr, 24, St. Clairsville; and Edwin D. Walford, 21, Bridgeport.

As reported in an *Associated Press* story, "All figured in the

rescue of James T. Artry, a 45-year-old school teacher, who suffered burns and other injuries but recovered after his plane crashed and burned at the Ohio University Airport, May 9, 1965.

"Artry was returning to the Athens airport to pick up two passengers for a return trip to Chicago. The plane hit a railroad signal tower, crashing to the ground where the plane and surrounding brush burst into flames. The five honored by the Carnegie Commission fought their way through the flames to aid in rescuing Artry from the plane."

* * * *

A pictorial newspaper supplement distributed nationally by *King Features* describes activities of the Flying Bobcats, a club formed in 1961 to promote interest and safety in aviation.

"The Flying Bobcats recently won the Loening Trophy as the top

Dr. E. D. Mattmiller

collegiate flying club in the United States. They also took second place in the National Intercollegiate Flying Association's 18th annual meet in Boulder, Colo.

"The whole university goes flying on penny-a-pound weekends when the club prices a plane ride at one cent for every pound a passenger weighs (with a \$1.00 minimum)."

* * * *

Ohio University's educational programs in South Vietnam have drawn mention in Drew Pearson's "Washington Merry-Go-Round" column. Citing U.S. accomplishments in the war-torn country, Pearson said:

"Three thousand teachers are being graduated annually from three teachers' training schools administered by Ohio University and the University of Southern Illinois."

He added that the United States has opened 4,000 new village classrooms in the last three years, and has a total goal of 13,000 within the next two years.

* * * *

Six former athletes at Ohio University were introduced into the Bobcat athletic hall of fame at halftime of the October 29 homegame against Dayton. The inductees included Mark Hendrickson of Columbus, Horace Palmer of Athens, M. Harold Brown of Miamisburg, Kermit Blosser of Athens, and Dr. Blaine Goldsberry of Athens. George R. (Krum) Kahler was honored posthumously. The new honorees raise membership in the hall to 14.

A pictorial newspaper supplement distributed nationally by *King Features* describes Ohio University's Monomoy Theatre in Chatham, Mass. The article reports:

"Hundreds of miles from the home base in Athens is Monomoy Theatre, which has been guided for nine summers by Christopher Lane, executive director and professor of drama during the winter months in Athens.

"The Monomoy players are mainly from Ohio University, but other colleges are represented. Mr. Lane selects his company from more than 300 applications. Of the 25 chosen, about 12 are actors and the rest are technicians and staff. Because the troupe is so small, the actors have an opportunity to play a variety of roles."

* * * *

A Toledo exhibition of 27 charcoal drawings and paintings in casein and acrylic by Dr. William Kortlander, associate professor of painting, drew favorable comments from *Toledo Blade* Art Editor Louise Bruner.

". . . My preferences went to those with stronger human identification—the dazzling sunlight casting deep shadows on the face of the man in 'St. Augustine' in casein; the drawing and handling of light in his charcoal figure sketch, 'St. Petersburg'; and his poetic 'Spring' in green acrylics where the figure suggests a young girl's romantic reverie."

* * * *

Radio Station WOUB has received mention in *Billboard* for its live broadcasts of the "Concerts Under the Elms" series.

* * * *

Reporting on a two-day seminar in Parkersburg, W. Va., sponsored by the University's Center of Economic Opportunity and attended by business and government leaders, *Charleston Gazette* Business Editor George Lawless observed:

"After two days of verbal volleyball, the 50 participants still man-

aged amicable handshakes. This, despite the fact that at times businessmen were accused of being an elite palace guard in the war on poverty, and some government officials were depicted as wild-spending veirdos who can't tell a payroll from a hole in the budget.

"Charles Lewis, executive secretary of the West Virginia Department of Welfare, scored the repeated seminar statement that welfare recipients are not 'motivated' to throw away the check and pick up a shovel.

"In a heck of a lot of instances," Lewis heatedly retorted, 'they never had anything to be motivated for.'"

The *Gazette* story reported that businessmen realize that assisting the poor costs money—lots of money. One spokesman said there are 40 million Americans subsisting below the poverty level. But some of the seminar-goers complained the outright dole was "throwing money down a rathole."

Lawless reported that the officials at the seminar agreed that education is the key to West Virginia's economic resurgence.

* * * *

Business Week, in an article entitled "Reaping the rewards of service," quoted Ohio President Vernon R. Alden, who was commenting on the statement that some years ago it was common to give honorary degrees to top executives in hopes of garnering a big gift for the school:

"The reaction against this was so strong in the academic community that some schools until recently actually came to regard business credentials as a stigma."

Why are more businessmen being tapped for such honors today? The article quotes President Alden's reply to this question:

"Today's executives are becoming increasingly involved in community, national, and international affairs."

Publications 'Superior'

Ohio University was one of six U.S. colleges and universities to receive a superior rating on its publications at a national institute held recently by the American College Public Relations Association.

The University's publications ranked second among those of 78 colleges and universities participating in the critique at Denver, Colo.

Director of Publications Don E. Stout, '51, whose office also produces the *Ohio Alumnus*, points out that the printed materials were evaluated primarily on the basis of graphic design and visual effectiveness.

Stout credits Charles Deihl, senior designer, for much of the layout and design work that brought the University recognition.

Deihl, who is assistant director of publications, came to Ohio from Michigan State University where he won awards both for his publications design and for his painting and sculpture.

Stout was art director of Dodrill Design Studio in Columbus before returning to the University in 1964. He previously worked at Battelle Institute as a designer and art director.

Among the materials submitted were President Alden's annual report, an art exhibition catalogue, a brochure on "American Blown Glass," and several pieces produced for the Ohio University Fund.

BOBCAT ROUNDUP

by Frank Morgan and David Kempton
Sports Information Office

SWIMMING

Coach Fletcher Gilders may have problems trying to capture a third straight Mid-American Conference swimming title this year unless his untested sophomores come through earlier than expected.

"We'll be banking heavily on sophomores and it's questionable just how far they'll come in one year," says Gilders, who has won three MAC titles in seven years.

The Bobcat swimmers face a demanding schedule—meeting Michigan State, Wisconsin, Cincinnati and Pittsburgh on the road and Notre Dame and Ohio State at home.

Senior George Saldana, of Detroit, heads the list of returning veterans. Saldana, one of Ohio's two returning MAC champions, set a conference record (4:33.7) in the 400-yard individual medley last year. Junior diver Chris Newell, Westerville, is the other MAC king, having established a record point total of 456.2 in three-meter diving last year.

Other returning veterans are seniors Mike Kelly, Pittsburgh, Pa., and Harry Greenfield, Shaker Heights—both members of the MAC record holding 400-yard medley relay team—and Ken Gerstenmaier, Massillon.

Gilders singles out Charles Atwater, Terry Gass, Tony Saridakis and Marty Haibach as this season's top rookies.

HOCKEY

Ice hockey at Ohio University has a new outlook this season, after being named last spring as the University's 11th varsity sport.

Many of the outstanding teams in collegiate hockey are on this

year's schedule. Highlighting the schedule are four games with Colorado College, two of them on Ohio's home ice in Bird Arena; another four-game, home-and-home series with Wisconsin; two games with Ohio State; and an eastern trip to Merrimack, Boston State College and Army.

Anchoring a strong defense will be veteran junior goalie Tiff Cook, of Willowdale, Ont., and senior captain Jerry Nuerge, Ft. Wayne, Ind. Cook ended an outstanding sophomore season with 592 saves in 21 games.

McComb expects junior college transfer Terry Gray to spark the offense, which will be without last year's scoring ace Jim Barfett, of Willowdale, Ont. Ineligible until the second semester, Barfett wound up last year with 31 goals and 20 assists.

Nuerge's running mates on defense will probably be veterans Joe Ciolet, of Cleveland, and Dennis Corbett, Pelham, N.Y.

WRESTLING

Depth, balance and two of the better collegiate wrestlers in the nation give veteran Coach Fred Schleicher an optimistic outlook for the 1966-67 season.

Dave Unik, Berea, a 123-pounder, and Rick Martin, a 167-pounder from Pittsburgh, Pa., rank as two of the better collegiate wrestlers this year.

Unik posted a brilliant 13-2 record last year while winning one match in the NCAA Tournament, the 115-pound title in the highly regarded 4-I Tournament in Cleveland, and the 115-pound crown in

the Wilkes-Barre, Pa., Open Tournament.

Martin was just as impressive, compiling an overall 19-4-1 record and winning the 167-pound 4-I title and one match in the NCAA tourney.

Schleicher is also counting on 160-pound sophomores Tom Cahal, Parma, and Chuck Sidoti, Berea; 160-pound captain Pete Witt; Roger Tresch, 130-pound sophomore from North Olmsted; and veterans Bucky Moran (137, Toledo), Bob DeSanto (145, Lakewood) and Frank Cargould (177, Hudson).

FALL WRAPUP

Regardless of what the rest of the season held in store for the Bobcat teams, early fall was a happy time for followers of Bobcat sports. Coach Bill Hess' gridders led the way with a 4-1 record through October 15 and a 2-0 in MAC competition. When the *Ohio Alumnus* went to press, the cross-country and soccer teams were also 3-1 and the freshman football team was 1-0.

Coach Stan Huntsman's cross-country team was rolling along merrily with three straight wins until the Bobcats' number one runner, Mel Williams, came up ill. With Williams in the lineup, Ohio bumped southern power Tennessee, a team that had not lost in its previous 25 meets. In the opener, Ohio won a triangular meet from Kent State and Pittsburgh by a score of 28-49-57. Williams missed the Miami meet and the Bobcats missed him as they went down to their first defeat of the season.

The soccer team opened the fall season with three straight wins for Coach John McComb—3-2 over Dayton, 4-2 in overtime over Denison, and 3-0 over West Virginia Wesleyan—before falling 5-1 at Pittsburgh. Again, it was injury to a key man—HB Fritz Bertz of Toledo—that had something to do with the defeat. Bertz, who was playing well defensively for the Bobcats, suffered a knee injury

during the Pitt contest and that opened the gates for the Panthers. In the Ohio Intercollegiate Soccer Association, the Bobcats were still undefeated with two wins and were challenging Akron for top spot.

Freshman Football Coach Bucky Wagner, whose charges rolled over Marshall, 48-0, feels "we have a little skill in the backfield and good team movement and the kids are real hitters. I feel there's some help for our varsity next year from this group."

BASKETBALL

With better balance in the MAC in prospect, as well as five Big Ten teams and two top independents (Loyola of Chicago and Virginia Tech) on its 23-game schedule, the 1966-67 basketball season promises to be one of the toughest ever for Coach Jim Snyder's Bobcats.

"The five best defensive players will start for us this winter," says Snyder.

Bad news came in October from physicians, who ruled that All-Conference forward Ken Fowlkes will not be available for play during his senior year because of a chronic knee condition. Fowlkes was the leading Bobcat scorer (16.1) and second best rebounder (16.1) last year.

"It leaves us a big gap to fill," says Snyder. Current candidates for forward on Snyder's starting five include Fred Cluff, 6-7 Hillsboro

junior, who shot 8.3 and rebounded 6.4 last year; sophomore Jerry McKee, a 6-3 Dayton Dunbar product who last year broke the University's freshman scoring record (held by Bunk Adams) with 23 points per game; Don Spires, a 6-6 senior from Irondale; and sophomore Larry Coon, 6-4, from Athens. Coon averaged 11.8 points and 8.6 rebounds a game as a freshman.

Leading center candidate is 6-9 senior John Schroeder, Norwalk. Coach Snyder hopes that more help from the forwards will take enough heat off Schroeder to allow the tall senior to loosen up and have an even better year this season than last, when he was the team's second high scorer (12.4) and top rebounder (11.8). Snyder plans to have Spires, one of the challengers for a forward spot, alternate with Schroeder at the pivot spot.

Mike Hammond, a peppery guard on last year's team, is one of the leading candidates for a backcourt assignment. The 5-10 senior from Columbus East finished last season with a 10.7 scoring average.

Cast in challenger roles at forward are 6-3 senior Russ Hamilton, from Marion Harding, who is also expected to work at guard; and 6-4 senior Bob Wood, a transfer from Northwestern in the Big Ten who saw some action in the second half of last season's schedule.

The Bobcats meet all of their Big Ten opponents—Northwestern, Purdue, Indiana, Minnesota and

Michigan—in December during the opening weeks of the season.

Conference contests—one in January against Kent State and three in February against Bowling Green (two) and Toledo—will be carried on the MAC television network, which includes outlets in Cleveland, Columbus, Akron and Cincinnati.

1966-67 BASKETBALL SCHEDULE

Dec.	1	Ohio Wesleyan (7:30 p.m.)
	3	At Northwestern
	5	Purdue (7:30 p.m.)
	7	At Indiana
	10	At Marshall*
	17	At Minnesota
	19	At N. Illinois
	22	At Michigan
Jan.	3	MacMurray College (7:30 p.m.)
	7	At W. Michigan*
	11	Marshall* (7:30 p.m.)
	18	At Miami*
	21	Otterbein (8 p.m.)
	28	At Kent State* (2 p.m.—TV)
Feb.	1	W. Michigan* (7:30 p.m.)
	4	At Bowling Green* (2 p.m.—TV)
	8	At Virginia Tech
	11	Toledo* (2 p.m.—TV)
	15	Miami* (7:30 p.m.)

Kendall Named Regents Professor; Five Assume Administrative Posts

Sharp

Kendall

Chandler

MacKenzie

Long

Huffman

Paul Murray Kendall, Distinguished Professor of English at Ohio University, has been named a Regents Professor by the Ohio Board of Regents.

The appointments are awarded to professors of state universities who have earned an international reputation.

Author of six books and an authority on the 15th century and the art of biography, Kendall has taught at the University since 1927.

Currently, he is on leave in Europe working with a co-editor in completing a six volume edition entitled "The Dispatches of the Milanese Ambassadors at the Court of Burgundy and France; 1450-1483." He will soon finish "Louis XI," a biography based on documents never before used.

With Charleton Hinman, world authority on Shakespearean text, Kendall is also preparing a one volume work, "The Complete Works of Shakespeare." The work will be published in England by the Oxford University Press and its lineation of Shakespearean texts will be the basis of the projected Oxford Concordance to Shakespeare.

Kendall's "Richard the Third" and "Yorkist Age" have been re-issued this year in the Anchor paperback series. His recent "Art of Biography" and "Richard the Third" have been nominated for national awards.

Ian MacKenzie, formerly managing director and president of St. Martin's Press, New York, has

been named director of the Ohio University Press.

MacKenzie joins Ohio University Press after 14 years with St. Martin's Press and two years with the publishing house of MacMillan and Company Ltd. in London.

Previously, he was on the administrative staff of the University of Liverpool and taught at the University of Edinburgh.

A native of Edinburgh, MacKenzie was graduated from the university there. His early schooling was in the Shetland Islands, where he spent his boyhood.

MacKenzie succeeds the late Cecil Hemley. Under Hemley's direction the Press published 31 titles, including the widely reviewed "David of Sassoun" and Malaparte's "Those Cursed Tuscans."

* * * *

Dr. John H. Chandler, formerly director of the Ohio Plan, has been appointed to the new post of dean of special programs at Ohio University.

In his new post, Chandler is responsible for generating and implementing experimental academic programs at the undergraduate level.

For the past two years, he has directed the Ohio Plan, a program of special seminars for students showing leadership potential.

The Ohio Plan and the Honors College, established in 1964, are among the programs which will be coordinated by the new Office of Special Programs.

Formerly on the faculties of the University of California at Los Angeles and Dartmouth College, Chandler holds an A.B. degree from the University of Chicago. He is an ordained priest in the Episcopal Church.

* * * *

Dr. Stanley A. Huffman, Jr., has been appointed associate professor and director of the new Learning

Resources Center at Ohio University.

The Center, which will have permanent offices in the new Library, provides audio-visual services. It will also serve as a storage and service center for programmed learning materials.

Huffman comes to Ohio from West Virginia University, where he was coordinator of the audio-visual program of studies.

Holder of doctorate and master's degrees in education from the University of Virginia, Huffman received his bachelor's degree from Virginia Polytechnic Institute. Previously, he held teaching positions at East Tennessee State University and University of Virginia.

He served on the planning committee of the Tennessee Educational Television Network and the advisory council of the West Virginia Educational Broadcasting Authority.

* * * *

Samuel C. Sharp is the new director of the Community Services Office of the University's Institute for Regional Development.

Formerly director of the Youngstown Area Community Action Council, Sharp will administer IRD's technical assistance program in 21 southeastern Ohio counties. The program is under sponsorship of the U. S. Office of Economic Opportunity.

In Youngstown, Sharp served three years as executive director of the Youngstown Area Council of Churches and was first president of the Mayor's Human Relations Council.

Sharp, who holds a bachelor's degree from Anderson College and master's degrees from Columbia University and Union Theological Seminary, has received a number of awards for his work with civic and community organizations.

* * * *

T. Michael Long has been appointed director of the Ohio Plan, a special program at Ohio University.

for undergraduate students who show leadership potential.

Long succeeds Dr. John H. Chandler, who is now dean of special programs at the University.

As director of the Ohio Plan, Long will have responsibility for interviewing and selecting Ohio Plan students, conducting seminars for the students, and arranging for special visiting lecturers for the program.

A graduate of Harvard University,

Long worked in Arkansas as civil rights liaison and district organizer for Winthrop Rockefeller in the latter's bid for the governorship of that state in 1964.

As a Corning Glass Traveling Fellow, Long traveled throughout Europe, the Middle East and West Africa in 1965.

Before being named to his new post, Long was a training associate for the University's Center for Economic Opportunity.

Agencies Offer Placement Assistance To Ohio Alumni

Each year hundreds of employers in business, industry, government and education contact Ohio University to locate alumni and graduating students qualified for openings in their organizations.

When this happens—and it happens often the year around—staff members of the University's two placement services move into action—screening their files of registrants to identify qualified candidates, contacting candidates to see if they're interested in the positions available, helping to arrange interviews with employers—in short, doing what they can to bring the interested and qualified candidate into touch with the prospective employer.

"This is our primary purpose," says Lewis R. Mollica, director of the University's Placement Service.

Throughout the year, some 550 organizations call regularly on the Placement Service for assistance in filling job vacancies.

The University's Educational Placement Bureau offers the same kind of assistance to alumni who are qualified as teachers or school administrators.

"Most of the job vacancies which come through our office," explains Bureau Director Dale F. Nitzschke, "are teaching in elementary and secondary schools and colleges of education."

Employers seeking assistance from these agencies are located in all parts of the country and represent a cross-section of the occupational spectrum.

The positions themselves range from beginning levels requiring only a bachelor's degree to advanced levels requiring an advanced degree and many year's experience.

Samples of the kinds of positions which have come through the University's placement agencies the past year are listed on this page.

All alumni are eligible for placement assistance from these agencies. However, a person must register to use the services.

A nominal \$2 fee is charged for each year a person wishes his credentials to remain on active file.

For information and placement forms, write or call—giving your name, degree and date graduated—to Placement Service, Berry Hall, Ohio University, Athens 45701 (614/594-6254).

Alumni interested in teaching and administrative positions in schools or colleges of education should write or call the Educational Placement Bureau, College of Education, Ohio University, Athens 45701 (614/594-5917), for information and registration forms.

This list is a sampling of the kinds of positions for which employers seek assistance from the University's Placement Service and Educational Placement Bureau in locating qualified candidates. Alumni are eligible to use the services of these agencies.

GENERAL

Assistant Director, finance and administration, for private educational institute concerned with improvement of public school systems. Bachelor's degree in accounting or finance. Salary open.

Laboratory Photographer for government agency in Washington, D. C. Bachelor's degree in photography preferred. Salary: \$6,451.

Industrial Relations positions with large home appliance manufacturer at locations in Indiana, Michigan, Minnesota and Ohio. Master's or bachelor's degree in industrial relations or management. Salary open.

Assistant Editor for publications office of midwestern university. Bachelor's degree in English or journalism; technical writing experience. Salary open.

Mechanical Engineer for steel fabricating firm at locations in Pennsylvania and Illinois. Bachelor's degree in mechanical or electrical engineering or equivalent. Salary open.

EDUCATIONAL

Teaching Positions in all geographical and academic areas for persons with bachelor's degrees. No experience required. Many positions beginning at \$6,000.

Overseas Teaching opportunities for persons with bachelor's degree and two years teaching experience.

Assistant Principal for North Central Ohio high school with 1,000 students and 45 teachers. Teaching experience and master's degree in public school administration required. Salary: \$9,500-10,000.

Assistant Superintendent for eastern city system with 11,000 pupils, 500 staff members. Prefer doctorate, successful teaching and supervisory experience. Salary: \$15,000-\$18,000.

Alumni Scope

NOTE: Please send items you wish included in the *Alumniscope* to Miss ELEANOR MINISTER, Director, Alumni Records, Ohio University, Athens 45701.

1917

MARY H. KERR has retired after 43 years of service as director of guidance and special services in the Garfield Heights Schools.

MEMBERS OF '41 CLASS HOLD 25TH REUNION IN ATHENS

Alumni from as far as California returned to Athens the weekend of October 7-9 for the 25th reunion of Ohio University's Class of 1941.

Members of the reunion group had to hustle to keep up with a busy schedule, which included dinners, bus tours of the campus, luncheon with President Alden, and the Ohio-Toledo football game—which the Bobcats obligingly won, 19-6.

Speaker for the weekend's opening dinner was Richard O. Linke, Hollywood, Calif., a member of the class who is now talent manager for television stars Andy Griffith and Jim Nabors.

Others attending the reunion were Ted and Mrs. Alfred, Louisville, Ky.; Frank and Mrs. Baumholtz, Cleveland; Jack and Mrs. Breinich, Mansfield; Bill and Mrs. Bucklew, Columbus; Jack and Mrs. Buess, Bedford.

Coy Casto, Athens, W. Va.; Robert and Mrs. Cook (Kathalean Scott, '40), Portsmouth; Mike and Mrs. Dennis, Middletown; William and Mrs. Davidson, Cleveland; Vernon and Mrs. Deinzer (Janice Nelson, '42), Dayton; William and Mrs. DeVitt, Branford, Conn.; Wesley H. and Mrs. Dill, Westlake; John and Mrs. Dobson, Cleveland; Ralph and Mrs. Doubler (Harriet June), Parkridge, Ill.; Robert and Mrs. Ellenwood (Caralyn Murdock), Silver Springs, Md.; Mrs. Ruth Farmer, Gahanna; Jean and Mrs. Freeland, Marietta; Chet and Mrs. Gober (Bette Parge), Lakewood.

Bob and Mrs. Hawes, Springfield; John K. and Mrs. Heintz, Sharpsville, Pa.; George and Mrs. Hodgson, Westchester, Ill.; George and Mrs. Hoffmeyer, Willoughby; Si and Mrs. Johnson, Kalamazoo, Mich.; Bill and Mrs. Kinney, Barnesville; Walter and Mrs. Kucharski, Beden, Pa.; Dick and

Mrs. Lawrence, Canton; Ed Lietwiler, Sewickley, Pa.; Dr. and Mrs. Ben Madow (Fannie Simon), Shaker Heights; Earl and Mrs. Manter (Evelyn Marks, '42), Cleveland; Alex and Mrs. Mekedis, Cleveland; Bill Merkel, Cleveland; Tom Morgan, Annapolis, Va.; Bernard and Mrs. Osborne, Dayton.

William and Mrs. Povtak, Poland; Daniel and Mrs. Risaliti, Canton; Richard and Mrs. Roosevelt (Doris Bach, '42), LaMirada, Calif.; C. W. and Mrs. Rose, Athens; Frank and Mrs. Shackleton, Strongsville; John and Mrs. Shafer, Ft. Mitchell, Ky.; John C. and Mrs. Sparks (Hope Spidell), Poland; Dr. and Mrs. Edward Sprague, Athens; A. V. and Mrs. Wetmore (Marilyn Francis), Sedona, Ariz.; Robert and Mrs. Whitford, Wooster; John Z. and Mrs. Withum, Vienna, W. Va.; Gomer A. and Mrs. Wolf, Mt. Vernon.

Belsho '50

Lisa Renee to GERALD HEBERT, '62, and Mrs. Hebert (CAROL VANA '61) on April 22 in Brecksville.

Michael John to JAMES M. JANKS, '65, and Mrs. Janks on July 19. They live in Parma Heights.

Brent Dean to Dean C. Kallander and Mrs. Kallander (MARY SUE LAFOLLETTE '55) on March 18 in Oxford.

Gretchen Sue to Keith B. Peterson and Mrs. Peterson (BEVERLY LEWIS '62) on December 28. They live in Royal Oak, Mich.

Jolene to WILLIAM HAROLD MERCER, '61, and Mrs. MERCER (PATRICIA MARMO, '59) on December 31 in Pittsburgh.

Scott Christopher to G. E. Haley and Mrs. Haley (JOANNE MILLER, '57) on April 12 in Dayton.

Angela Elaine to Roger Lee McFarland and Mrs. McFarland (VIVIAN R. MURPHY, '65) on July 5 in Dayton.

Stephen Thurlow to THURLOW R. ROBE, '55, and Mrs. Robe (ELEANORA KOMIYATI, '54) in October, 1965.

Susan Ellen to LUTHER W. SANDERS, '62 and Mrs. Sanders (CAROL UHRYK, '61) on Aug. 21, 1965 in Knoxville, Tenn.

Gregory Montague to MICHAEL SMALTZ, '66, and Mrs. Smaltz (MARY SHOOK, '64) on April 11 in Athens.

James Patrick to JIM TIMONY, '54, and Mrs. Timony on April 19. They live in Dayton.

Cynthia Leslie to Charles Phelps and Mrs. Phelps (JUDY WALKER, '62) on Sept. 5, 1965. The couple lives in Shaker Heights.

Julian James to JAMES M. WEEKS, JR., '60, and Mrs. Weeks (SUZANNE MILLER, '60) in Lakeland, Fla.

Dorene Louise to ROBERT A. WENDT, '55, and Mrs. Wendt on March 8 in Cleveland.

Nevin Roger Williams II, on August 6 to Capt. and Mrs. NEVIN R. WILLIAMS, '55, in Panama Canal Zone.

Joel Alan to Mr. and Mrs. Herbert D. Greff (FRANCINE WOLFERT, '62) on June 30 in Columbus.

CHESTER E. EVANS, '38, of a heart attack at his home. He was a professor of business administration at Wayne State University in Detroit. Surviving are his widow, Mrs. Eleanore Donaldson Evans, his mother, a daughter, and a son.

OMAH GASTON, '38, died on June 29 in Athens after an illness of about a month. For a number of years she was secretary in the College of Arts and Sciences at Ohio University. For the last few years she taught fifth grade at East Side School in Athens. She is survived by her father, J. Lee Gaston, and a brother, Glenn A. Gaston, both of Athens.

BESSIE CORSELENE, '12, in Athens on June 26 after a brief illness. She was a former school teacher and cosmetics saleswoman.

INA CARRIE HAUBEIL, '41, on Oct. 11, 1964.

Mrs. Edward C. Swigart, (ESTER ELIZABETH ORR, '15), Dec. 2, 1965. Before her marriage to Dr. Edward Swigart, a dentist, she was in social work in Cleveland and Kansas City, Mo., and also taught second grade. She is survived by her husband, two daughters and a son.

LOUISE PUTNAM ROACH, '11, at her home in Athens. Member of a pioneer family, Miss Roach was for many years employed by an engineering company and Griselli Chemical Company, both in Cleveland. She is survived by two sisters, Mrs. Fred (Aldine) Flegel, Zanesville, and Miss Hazel P. Roach, Athens.

LT. COL. L. F. STONE, '36, Oct. 25, 1965. He had retired from the army in March of that year and was executive secretary for the Columbus Rotary Club. He is survived by his wife, the former Doris Campbell, and three children.

W. TONG WEST, '26, at home in South Shore, Ken., on June 25. He is survived by his wife, Doris, and three sons, Daniel, David, and Ralph.

WILMA L. WYNE, '25, Clarksburg, W. Va., on August 4 after a brief illness. She was a retired teacher and is survived by three aunts and several cousins.

Marriages

SANDRA CLAIRE ABOOKIRE, '64, to Harold Sabbagh in Cleveland.

PAMELA ANGLE, '66, to MICHAEL HOWARD LOCSDON, '65, on June 25 in Cumberland, Md.

Marilyn Berloff to ALAN LEE APPELBAUM, '62, in Akron.

Claudia Jean Brust to RICHARD PAUL BARREIGER, '66, on June 11 in Grove City.

Marilyn Sue Pierce to BRANKO BAYAT, '63, on June 12 in Steubenville.

Nancy Walker Stevens to RICHARD WILSON BENFER, '64, in Rumford, R. I.

Rose Elaine Coville to EDWARD WALTER BERWINKLE, '61, in Colerain on May 27.

Paula Louise Bacon to FREDRIC JOHN BIRK, '59, on July 2 in Avon Lake.

NINA RUTH BOLLING, '65, to William B. Riley on July 1.

PHYLLIS JEAN BOROSKI, '65, to Joseph E. Merkel on June 11 in Dillonvale.

Barbara Lind to LARRY L. BREWER, '62, in Maywood, Cal., in June.

Arlene Wollam to WARREN KEITH BROWN, '65, in June in Terre Haute (O.)

BETSY ANN BRYAN, '65, on May 28 to Kenneth F. Hegyes in Shaker Heights.

JUDITH PEARL BUTCHER, '63, to ROBERT GARWELL, '65, in Pomeroy.

GAYLE CERVENAK, '66, to RICHARD H. VAN BERGEN, '65, in June in Cleveland.

Susan Jane Stevenson to MICHAEL KENT COIL, '66, in June in Miamisburg.

Nancy Ellen Walls to CHARLES LAWRENCE COLE, '66, on June 18 in Cadiz.

CAROL ALYCE CONGROVE, '66, to Thomas Neil Taylor on June 12 in Columbus.

Kathleen Marie Taylor to JACK L. COPELAND, '64, on May 7 at Malstrom Air Force Base, Mont.

CATHRYN CHERYL CROUSE, '66, to PATRICK THOMAS O'BRIEN, '66, in Fairview Park.

Joan Marie Hohorst to JAMES E. CUGIER, '66, on June 11 in Cleveland.

MARY FRANCES DAVIS, '64, to Joseph Thomas Melley on May 28 in Jackson.

SUSAN MARIE DAVIS, '63, to Michael V. Gooch.

Ann Florence Phelps to JOHN ALLEN DEPOY, '66, on April 30 in Weston.

Linda Marie Mospens to C. BRENT DEVORE, '62, in Massillon.

Cynthia R. McCoy to ROBERT A. DOERR, '65, on June 18 in Painesville.

Judith Dale Cadwallader to THOMAS JAMES EICHHORN, '66, on June 11 in Cleveland.

KARIN MARIE ENGSTROM, '66, to JAMES FLOYD HANDSCHUMACHER, '66, on June 18 in Bryan.

Carol Sue Nicklas to CHARLES H. EVANS, '63, on June 25 in Newark.

Nancy Wood to DONALD L. EVANS, '65, on July 2 in Greenfield.

SUZANNE FECKE, '64, to STANLEY H. SCHULMAN, '64, on June 26 in Mt. Lebanon, Pa.

MARY ANN FEDOR, '64 to FREDERICK MYRON KAPLAN, '64, on July 2 in Cleveland.

Deaths

Margaret Weeter Bishop, wife of HERMAN D. BISHOP, '14, June 15 in Mansfield. She was voted "Mother of the Year" when all three of her sons were on campus. Besides her husband and sons, she is survived by eight grandchildren and a sister.

ALUMNA FOLLOWS SPACE RESEARCH CAREER

Perhaps the nation's space program is a man's field. Still, it would be hard to prove by Marilyn Huheey, and for good reason.

Since graduating from the University in 1958, the Mariemont native has made quite a career for herself as a life science engineer in space research.

Employed by North American Aviation near Los Angeles, Miss Huheey is currently on leave of absence studying for her advanced degree in physiology at the University of Oklahoma in Norman.

Once she completes her studies, Miss Huheey will return to North American where, she explains, it is not unusual for her to be working on several space research projects at any given period of time.

"One of our biggest projects is in the area of acclimatization. Six men will live on the top of a mountain until their bodies are accustomed to the altitude. The thinner air causes an increase in the amount of hemoglobin (the oxygen carrier) in the bloodstream. This is expected to affect the men's tolerance to physical stress.

Miss Huheey says the men will also spend some time in a pressurized chamber to determine the effects of varying altitudes on the body's capacity for physical stress.

"Our aim is to determine if pre-conditioning of this sort would be worthwhile for astronauts."

On another assignment, Miss Huheey was member of a team perfecting an instrument which would register the exact force and amount of blood pumped from the heart with each beat. The instrument can be used in hospitals as well as with astronauts in monitoring heart action.

Miss Huheey began her career as a high school teacher right after her junior year at the University. Graduating in 1958 she traveled to Colorado in search of a special teaching job. Instead, she took a job as a biostatistician at a Denver Hospital. During this time she continued studying in her spare time, adding to her earlier studies in mathematics.

In 1960, she became a human factors engineer at Stanley Aviation in Denver, where she worked on perfecting the capsule used to eject flyers from planes flying at supersonic speeds.

This work took her to California, where for several months she worked with a team assigned to the Apollo moon project.

Gemini Astronaut James McDivitt served as one of the models for Miss Huheey's team in perfecting

Marilyn Huheey

the harness that will hold the spacemen in their seats during the moon flight scheduled for 1969.

Although she works almost exclusively with men, Miss Huheey says she finds no prejudice against women in the profession. An "exceptional young lady" and "valuable asset" are among the terms of praise she gets from bosses and fellow workers.

The Ohio alumna has a bachelor girl's apartment near Los Angeles where she spends her spare time knitting and listening to a Hi-Fi for which she built her own amplifier.

"I didn't know a nut from a lockscrew when I started," she laughs, "but the set works beautifully."

Miss Huheey says she isn't considering space flight for herself—"I'm much too busy"—but she predicts that women "definitely" will be astronauts.

FERN MARCIA FEINSTEIN, '66, to JEFFREY DENNIS WEISS, '64, on July 3 in Cleveland Heights.

KATHLEEN FURGAL, '65, to JOSEPH JAMES CORSO, '65, June 25 in Parma.

Elaine Judith Weiss to BARTON GILBERT, '60, in Erie, Pa.

JUDITH ELLEN GREEN, '65, to RAYMOND GEORGE VILLWOCK, '65, on Oct. 2, 1965 in Mt. Lebanon, Pa.

MARY ANN HEATHER HALL, '66, to David Lawrence Batley in Cleveland on May 28.

Myra J. Savin to MICHAEL A. HALLE, '61. He is a pediatric resident at Maimonides Medical Center, Brooklyn, N. Y.

Teri Ann Berman to R. FRANK HOFFMAN, '64, on June 19 in Columbus.

JANET ANN HOTHAM, '65, to Kenneth Bruce Dodds on June 11 in Gahanna.

CANDACE NAN JACOBS, '66, to WILLIAM FRANCIS SPITZER, '65, in Youngstown.

Lynn Marie Baumberger to DAVID JACOBY, '60, on June 4 in Mansfield.

PAULINE JAY, '65, to ARTHUR L. VORHIS, '65, on Aug. 28, 1965.

MARY FREDRICKA JOHNSTON, '64, to Karl Joergen Borchers on June 10 in Trotwood.

J. SUE JONES, '63, to Roger D. Shetlerly in Dayton.

Patricia Jane Price to CHARLES EDWARD JORDAN III, '62, on June 19 in Columbus.

Gloria Kameron to PETER KARES, '58, on May 28 in Warren.

PATRICIA ANN KELLEY, '66, to THOMAS KENNETH BLOOM, '64, on June 11 in Columbus.

PATRICIA MARILYN KELLY, '66, to ROY NELSON RITNER, '66, in Martins Ferry.

PATRICIA ANN KENT, '65, to Michael Andrew McTague on June 25 in Athens.

JOYCE ELAINE KINGHORN, '56, to RICHARD THOMAS NYERGES, '65, on June 18 in Cleveland.

VIRGINIA ANN KNALL, '67, to PHILLIP SCOTT GUTHEIL, '66, in Cleveland.

Patricia Taugenberg to LAWRENCE E. KUNKLE, JR., '62, on July 2.

PAMELA SUE KYLE, '65 to Alvin Wayne Silvey on June 25 in Eldorado.

SUSAN L. LAVERTY, '63, to Robert M. Duntun, Jr., in Bay Village.

Evelyn Marie Johnson to ANDRE F. LEBLANC, '59, on June 18 in North Olmstead.

SHELLEY LINKHART, '65, to Richard Allan Brown on July 9 in Greenfield.

DANIELLE McCAFFERTY, '63, to Thomas J. Ucko in June in Akron.

MARIANNE MCCREA, '66, to KNOX T. GUTHRIE, '65 on May 28 in Brilliant.

MARSHA McDANIEL, '66, to Marvin Rizer June 19 in Marion.

Carol Lea Martin to FRANK J. McWHORTER, '64, on June 11 in Lyndhurst.

CONNIE SUE MAGNUSON, '64, to David Edward Loynachan in Columbus.

Carole Annette Samuel to JESS CARLTON MARKIN, '61, on June 25 in Cleveland.

Judy May Everette to WILLIAM MELOY, '52, on June 24 in Zanesville.

JANET MIKITAW, '64, to Thomas Grothjan on July 2 in Youngstown.

JUDITH LEE MILLER, '64, to Charles Timothy Hartshorn on July 2 in Lancaster.

MARLENE MILLER, '66, to Robert Gold on June 11 in Columbus.

MARILYN ALICE MOFFAT, '66, to Charles Edward Meeks in Lima.

JOAN MOLINA, '64, to Richard David Butterfield in Cleveland.

JOAN C. MORGAN, '66, to LARRY L. NOBLITT, '65, on June 25 in Steubenville.

MARY ELLEN MORSE, '65, to Donald Hendrix Miller on June 11 in Kailua, Kona, Hawaii.

PEGGY NEWCOMER, '66, to Kenneth N. Hamilton, Jr., on June 6 in Xenia.

Gail N. Stewart to WILLIAM NOVOTNY, '65, on June 11 in Rockville Center, N.Y.

JEANIE OBLOY, '65, to Gene Wilson on June 25 at the Baldwin-Wallace College, Berea.

KAREN LOYE OESTREICH, '64, to JAMES BRIAN MURRAY, '64, in Perrysburg.

Lillian Truskowski to JAMES W. O'KONSKI, '65, on June 11 in Grand Rapids, Mich.

NANCY KATHRYN OLDS, '64, to CHARLES ROBERT KEMP, '66, in Lakewood.

JEAN B. PARLET, '66, to Paul M. Shimp on July 2 in Old Washington.

JOAN GRACE PARLET, '63, to Eric L. Ellis on August 27 in Old Washington.

Susan Beth George to WILLIAM R. PAXTON, '66, on May 27 in Swanton.

Marcia Pexton to EDWIN WALTER A. PEURA, '63, in Spring, Va.

ELIZABETH M. POKORNY, '65, to JAMES M. MOLL, '64, on July 16 in Shaker Heights.

KATHLEEN DIANNE PORTER, '64, to STEPHEN FRANK CONWAY, '66, in Salem.

Betty Lou Dettwiller to BILLY GRANT QUESENBERRY, JR., '65, in Portsmouth.

JO ANNE RADER, '65, to MICHAEL L'HEUREUX, '66, on June 11 in Athens.

MARY RAPTIS, '38, to Bruce E. Kent in Washington, D.C.

Beverly Jeanne Marrale to JAN HERLAND REYNOLDS, '64, on June 25 in Zanesville.

Nancy Leah Allen to ROBERT PAUL ROSEMAN, '65, in Massillon.

ANN FORD ROWLAND, '67, to GAREN RAY WICKHAM, '66, June 25 in Athens.

Diana Ruth Roksandich to ANTHONY L. RUSSO, '66, on June 18 in Steubenville.

Helen Frances Emerick to WILLIAM JOHN SAMUELS, '64, on June 25 in Cleveland.

JANET LOUISE SCHNEIDER, '66, to Terry Allen Whetstone on June 21 in Ashville.

SHARON LEE SCOTT, to JAMES E. LANGHURST, '65, on June 25 in Mt. Vernon.

Mary Elizabeth Strub to WILLIAM TYRONE SELLS, '65, on July 2 in Canton.

MARTA SHIPLEY, '65, to RICHARD PAUL SLACK, JR., '66, on June 4 in Cambridge.

MELANIE GAY SILAS, '66, to John Charles Urbanek in Fairmont.

Delia Ann Aldridge to JOHN W. SIMONTON, '66, in Springfield.

Donna May Imhoff to CHARLES SLAVIK, '64, on June 18 in North Royalton.

SANDRA SMITH, '66, to Drew B. Parker, Jr., on June 19 in South Salem.

VIRGINIA RAE SMITH, '67, to FRANK C. SARGEANT, III, '66, in Ashland.

DONNA MARIE SPECK, '66, to LAURI JOHN ETELA, '66, on June 25 in Cleveland.

SARAH LOUISE STEWART, '66, to ROBERT NEWHALL, '66, in June in Athens.

Barbara Boyd to THOMAS STREAM, '66, in Newark.

BONNIE JO SWAN, '66, to RICHARD WILLIAM CORDELL, '66, on September 3 in Dayton.

Patricia Sue Lewis to FERRELL L. SWINEHART, '66, on June 11 in New Pittsburg.

KAREN TENNANT, '65, to STEPHEN RENNER, '61, on June 9 in Raleigh, N.C.

LOUISE CORINNE THOMAS, '66, to John Raymond Yorgovan on June 11 in Price Hills.

TERRY TOMPKINS, '66, to STANLEY JOSEPH KACZMAR, '67, in Coshocton.

NADA TOMSICH, '66, to Lawrence Prince on June 18 in Cleveland.

Mary Ann Nicklay to VICTOR JOHN TOT, '66, on June 11 in Elyria.

JANET L. TURNER, '65, to James P. Friedt on June 18 in Wadsworth.

Lois Landen to JAMES VAN BUTCH, '59, in Dayton.

Pauline Joyce Milhouse to ARTHUR GUALE-VERMILLION, '56, May 29 in Indianapolis, Ind.

Janice Lee Blankenship to THOMAS J. VITCHNER, '66, in Tiltonsville.

TERESA DIANE WAGNER, '64, to CLARIS EUGENE JONES, JR., '64, in Newark.

JOAN WALKER, '62, to John W. Hoelscher on May 28 in Englewood, Colo.

PATRICIA ANN WALLINGFORD, '65, to WILLIAM DWIGHT SMITH, '66, at Wright-Patterson Air Force Base.

NANCY TICE WASHBURN, '65, to RANDALL B. CRUBB, '66, in South Charleston, W. Va.

KAREN SUE WARD, '66, to Christian Louis Cheeseman on June 12 in Chillicothe.

LINDA WEBBER, '66, to ROBERT D. WILLIAMS, JR., '66, on May 29 in Athens.

Dolores Ann Dzurainin to JOHN C. WENRICK, '62, on June 4 in Cleveland.

CHARLOTTE EILEEN WEST, '65, to John Ralph Hendricks in Marietta.

Joyce Karen Baird to DONALD J. WICHERT, '66, on June 11 in Pleasant Hills.

Christine Helen Madsen to MARK RICHARD WILLIAMS, '66, on July 1 in Chagrin Falls.

Alicia Menendez to NEVIN R. WILLIAMS, '55, on May 3, 1965, in Colon, Panama.

CAROL JEAN WILSON, '66, to John A. Melvin in Athens.

MARY LEE WILSON, '60, to Robert T. Golitz on July 2 at Wright-Patterson Air Force Base.

Barbara Mabel Groves to DAVID DALE WONSETTLER, '54, in Youngstown.

LINDA KATHRYN YOUNG, '64, to JAMES RUSSELL DOANE, '62, on June 11 in Whitefish Bay, Wis.

MARY M. YOUNG, '59, to Alfonso Duarte, Jr., in New York City.

CLASS OF '66 PLEDGES \$20,285 TO UNIVERSITY

Final results of the Senior Class Challenge show that 408 members of the 1966 Senior Class have pledged \$20,285 to the University over the next five years.

"This is the most sizable gift ever given to the University by one of its graduating classes," said John M. Penrose, director of annual giving.

"It is also the first project of its kind ever undertaken by a graduating class at the University," he added.

Penrose commended the class for the "uniqueness of their idea and their success in carrying through with it. They have a right to be proud of the results."

Half of the unrestricted gift fund will be deposited in an investment portfolio and the remaining half will be used to meet current needs of the University.

Specific uses of the gift will be determined by class officers and the Board of Trustees of the Ohio

University Fund.

The gift represents a departure from the custom followed by most graduating classes whereby a lump sum is donated to purchase a particular gift.

Telling how the gift came about, Joel Needle, a class officer, explained, "We decided that the sum of \$1,000, which was all we had to work with for a gift, could never accrue to an amount that could be useful for our purposes.

"So," he said, "we decided a fund-raising project was the answer. Meetings followed, and suggestions were tossed up. Half way through the year we still hadn't found a suitable plan and we were about ready to abandon the project.

"Then, one day early in February, Jim Banks (formerly director of the Ohio University Fund) called Steve Vetter (class president) and me with a suggestion of contributions handled through the

Alumni Association, but solicited by the seniors while they were still in school. In other words, we could give money to the school in the name of the class, with the option of deferring payment until after graduation. The only stipulation was that the pledging was to take place while the student was still a senior.

"We liked the idea immediately, for it meant uniting the class behind a common interest and giving it some form of identity. It also meant that, if our goal of 400 pledges was reached, our class gift would be 25 times the gift of any preceding class."

Needle explained that "our main obstacle was to put the idea across to seniors worried about their future and with no apparent reason to commit themselves at such a time. Steve said this would be quite a challenge for a handful of inexperienced fund raisers. This is how the campaign got its name."

OFFICIAL OHIO UNIVERSITY CHAIRS AND RINGS

This trio of Ohio University chairs combines beauty and dignity in its design. Each chair is solid birch construction and finished in dull black with rings of gold on legs and rungs. The Adult Chair has cherry arms in natural finish. Each of the chairs has the official Ohio University seal set in gold.

These chairs fit either a traditional or contemporary decor and are equally at home in the living room, study, family room, or office. You will find all three Ohio University chairs comfortable as well as attractive.

LADIES CHAIR ADULT CHAIR ROCKING CHAIR ADULT SIDE CHAIR

CLASS RINGS

These rings have been selected and approved by the Ohio University Alumni Association, and all orders must be processed by the alumni office. Orders specifying back dates (allow two numerals prior to 1960; one numeral for 1960, 61, 62, 63, 64) should include a \$3.00 charge per numeral. No numeral charge is required for current or future graduating classes. Year dates and degree are optional. Laurel leaves will be substituted for numbers and degree when dates are omitted. Rings are sent COD.

A \$6.00 DEPOSIT MUST ACCOMPANY ORDER.

Price \$29.60
Ohio tax .89

TOTAL \$30.49

This price includes a choice of the following stones:

- A. Black Onyx
- B. Ruby

'THREE-IN-ONE' SHOT CATCHES CAMPUS GROWTH

Aerial view taken in October shows three major projects in progress on the campus. In foreground is 5-story core building of University's \$25 million science and engineering campus south of College Green. In center of photo is new accelerator building, which will house a 4-million-volt Van de Graaff generator. Both structures will be completed next spring. Just below Cutler Hall (in upper righthand corner) is site of new \$5.8 million library, which is scheduled for occupancy in spring of 1968 (see story this issue). The 60-acre science and engineering campus is being built in four phases. When completed in the early 1970's, the complex will house teaching and research facilities for chemistry, physics, botany, zoology, mathematics, geology and geography, and chemical, civil, electrical and mechanical engineering.
